2005 TAX PROFESSIONALS SEMINARS

Did you have a successful filing season? April 15th is behind us but it's not too early to prepare for next year. This year more than 665,930 Arkansas federal tax returns were filed electronically. This is a significant increase over last year. Are you a part of this sweeping trend? If not, this tax seminar will answer questions like, "What's in e-File for me?" and "How do I get started?" Are you an established Electronic Return Originator filing the occasional electronic return or a seasoned pro at responding to rejection codes? Regardless of your level of e-file expertise, the 2005 Tax Practitioner Seminar will provide valuable information on moving your business forward with the latest e-file program enhancements.

The IRS Taxpayer Education and Communication office in Little Rock is sponsoring three Tax Practitioner Seminars. These seminars are designed to educate tax practitioners on many important topics such as:

- IRS Individual e-File, Modernized e-File and e-Pay
- Electronic Services
- The Latest Information from the Arkansas Department of Revenue
- News from the Social Security Administration

Each seminar will begin registration at 7:30 a.m. The seminars are scheduled to end at noon. Enrolled Agents and Certified Public Accountants (subject to approval by your state board) can earn up to **4** Continuing Professional Education (CPE) Credits by attending.

Attendance at each of the no-cost seminars is available on a **first-come basis**. To register, contact the Arkansas Small Business Development Center.
